ANNOUNCEMENT AND CALL FOR PAPER

INTERNATIONAL CONFERENCE

“OC EO CULTURE IN THE CONTEXT OF ASIAN CULTURE”

Location: Long Xuyen City, An Giang province, Vietnam

Time: November 17, 2023

Oc Eo culture is a well-known archaeological culture in Southern Vietnam that is linked with the history of the kingdom of Funan and the country of Vietnam. This culture has been well known since Louis Malleret's 1944 archaeological investigations at Oc Eo Field. Since then, Oc Eo-Ba The has gained recognition as an important archaeological site not only in Vietnam's southern region but also throughout Southeast Asia. Excavations here over the last few decades have uncovered numerous artifacts that demonstrate the origins and evolution of the Oc Eo culture, establishing Oc Eo as the Funan Kingdom's largest, busiest, and most well-known urban center.

From 2017 to 2020, the Vietnam Academy of Social Sciences (VASS) organized the implementation of the Project "Research on the Archaeological Sites of Oc Eo-Ba The and Nen Chua (Oc Eo Culture in the Southern Region)" with the important goal of excavation and research at Oc Eo-Ba The site (An Giang province) and Nen Chua site (Kien Giang province) in order to clarify the value of Oc Eo culture in the Southern region, provide a scientific basis for planning work, preserve and promote the value of Oc Eo-Ba The and Nen Chua archaeological sites. The Project's execution has led to a number of significant new findings that have helped to elucidate the nature, function, date, and role of the Oc Eo ancient city, an important economic and cultural center in the history of the Funan kingdom.

Towards a new, deeper, and more comprehensive understanding of Oc Eo culture, as well as continuing to clarify the historical, cultural values, and relationship of Oc Eo ancient city in economic and cultural exchanges with the world in the first 10 centuries CE and contributing to the preservation and promotion of the Oc Eo site, the Vietnam Academy of Social Sciences and the People's Committee of An Giang province will collaborate to host an international scientific conference with the theme "Oc Eo culture in the context of Asian culture" in Long Xuyen City, An Giang province.
